AERIS

Air Handler Deodorizer

Formula Actively Kills Malodors and Provides Aromatherapy Benefits

This product effectively eliminates bad odors from air handling/air conditioning systems and improves indoor air quality as it is circulated throughout the facility.

AERIS Air Handler Deodorizer provides aromatherapy benefits from essential oils with three great fragrances.

Lemon Coconut

Provides calm and relaxation, elevates mood, increases alertness and concentration.

Orange Breeze

Helps to calm and relax, while uplifting mood and refreshing.

Peppermint

Temporarily relieves headaches and tension, increases alertness while energizing.

AERIS Air Handler Deodorizer:

- Bio-based and fully biodegradable.
- Earth Smart® Certified.
- Deodorizes while dispersing fresh aromatherapy fragrances.

Available in two sizes:

- 2 pound block will deodorize a 15 ton system for 5 – 6 weeks.
- 8 pound block will last for up to 12 weeks.
- These two sizes accommodate placement in several areas of the system.

Place blocks in air handlers or air conditioners at points where air is pushed out through the system. Place in drip pans and other ductwork throughout the facility for maximum effect.

If you've ever had complaints about the air coming from your system smelling stale, you can eliminate the complaints and freshen the air with **AERIS Air Handler Deodorizer**.
