

**EPS KO Drain Treatment for Ice Machines** is a drain maintenance treatment product packaged in cartridges for use with the A348 Kompressor® Dosing System.

**EPS KO** is specifically formulated to control cold water sludge buildup in the drains that reduces flow, causing backups and foul odors. Combined with the Kompressor® Dosing System, it offers the perfect solution to treat ice machine drains, as well as other cold water drains.

Each 550 mL cartridge of product provides up to 4 weeks of treatment to keep these drains flowing freely.

CONTENTS

### FIRST AID MEASURES:

**IF ON SKIN:** Wash with soap and water. Get medical attention if symptoms occur.

**IF IN EYES:** Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses and continue rinsing. Get medical attention.

**IF INHALED:** Remove to fresh air. If not breathing, give artificial respiration. Get medical attention if symptoms occur.

**IF SWALLOWED:** Do not induce vomiting. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person.

An SDS for this product is available through HES's website. Please read the SDS carefully and follow all directions when using and handling this product. Never reuse empty containers. Incompatible materials may adversely react.

**KEEP OUT OF REACH OF CHILDREN.**
